

2025 URFC THP Monitoring Report

Timber Harvesting

Timber Harvest Plan	Harvest Volume (MBF)	Harvest Acres	Silviculture
M&B 1-25-00089-MEN	0	0	Selection, Variable Retention
Yonder in the Hollow Tree 1-25-00125-MEN	0	0	Transition, Selection, Group Selection, Variable Retention
Total	0	0	

Sediment Source

In 2025, 45 Erosion Control Plan (ECP) sites were monitored on the Usal Redwood Forest Company Property. Most of the sites were performing as described in the ECP, though Iron Gate THP and Bear Creek West THP are requesting GWDR termination July, 2026. New THPs will inherit several ECPs from each THP that will continue to be monitored.

Note: Happy Jack THP was terminated for ECP monitoring.
